

# Healing Classes

## Motivational Classes

Starr has received wide acclaim for her motivational classes, which she particularly enjoys teaching. Starr loves to light fires! She has the ability to look at your life, immediately assess where the problem areas are, see what's holding you back and create the breakthroughs necessary to take you to higher levels of happiness, satisfaction, and achievement of goals. She combines her psychic abilities, insight, laser-like intelligence and her ability to find clarity amidst chaos, all of which adds up to motivational dynamite.

Starr teaches goals clarification, goal setting, public speaking, and many classes related to finding life purpose and path. With Starr's dynamic insight and motivational abilities, you can turn your life into exactly what you want!

## Spirituality Classes

Starr's journey from childhood abuse and neglect to becoming a Master Teacher and Healer puts her in a special position to teach others about the spiritual path. Through her own path to Spirit she has come to understand the meanings of surrender, compassion and truth. She brings extraordinary insight, clarity and common sense to the student seeking to broaden their experience and knowledge of the path to Spirit. Many look to her for spiritual guidance, and rather than giving answers freely, Starr helps each student find his or her own path, shining the light on his or her own spiritual wisdom.

All of Starr's classes are infused with spirituality, but she also offers several classes designed specifically to enhance and deepen one's relationship to the spiritual path.
